

Programs that deliver results referral sources want to see

Actively improve outcomes with our comprehensive rehabilitation and wellness services.

At Symbria Rehab, we know how much outcomes matter—for your residents and patients, and for the sustainable success of your community.

That's why we integrate comprehensive rehabilitation AND wellness services into a unique delivery model for post-acute care and senior-living providers.

Results that set your community apart.

Our unique approach delivers business-changing and life changing results that make a measurable difference:

- 1 We tailor services** that fit the needs of your patient population.
- 2 We reduce hospital readmissions** with our clinical best practices-driven services.
- 3 We support census retention and growth** through our ability to seamlessly transition from rehab to wellness.
- 4 We strengthen your relationships with hospitals** through specialized programs geared toward higher-acuity residents.
- 5 We maximize clinical outcomes and organizational resources** with effective case management.
- 6 We keep staff turnover low and patient satisfaction high** by providing fulfilling career opportunities.
- 7 We reinforce quality assurance and minimize Medicare denials** with state-of-the art compliance documentation.
