

Give your patients the therapy they need – and your agency a partner in compliance.

Actively improve outcomes, rapidly schedule patients for therapy, and rely on same-day clinical documentation.

At Symbria Rehab, we know how much outcomes matter for your patients and the success of your agency. We also understand that great outcomes are only part of the equation: Timely, compliant therapy documentation is fundamental to accurate billing and contributes to your financial well-being.

That's why we integrate a comprehensive rehabilitation model with a sophisticated web-based system that allows us to collaborate more effectively with home health agencies.

You'll see results that set your agency apart.

A full menu of therapy programs

Our unique approach delivers business-changing and life-changing results that make a measurable difference:

- 1 We minimize Medicare denials** through our 24-hour clinical documentation turnaround policy.
- 2 We maximize patient satisfaction** by delivering 24-hour referral confirmation along with outstanding clinical outcomes.
- 3 We reinforce your agency's compliance** with our electronic clinical documentation software and system alerts for 30-day reassessments, as well as discharges, care plans, functional goals, and more.
- 4 We maximize your agency's efficiency** through e-referral systems and a web-based portal that allows you to access and download all clinical documentation.
- 5 We help reduce hospital readmissions** with our clinical best practices-driven therapy modalities.
- 6 We strengthen your hospital relationships** by allowing you to offer specialized programs geared toward higher-acuity residents.

Symbria Rehab. Forward-thinking teamwork.

Integrity and compassion have always gone hand-in-hand with our commitment to innovative initiatives. Established in 1999, Symbria Rehab now encompasses multiple joint venture partnerships, a growing client base of close to 200 post-acute care and senior-living communities, and a staff of nearly 2,000 therapy and fitness professionals in more than a dozen states.
