5-Day Assessment CMGs and HIPPS Code

- PT/OT = TK
- ST = SA
- NTA = NC
- NSG = HBC1
- HIPPS Code = KAGC1

Day 12:

Considering an IPA Patient Information

- Ulcer healed
- Contracted an infection/on isolation (C-diff)
- Depressed due to quarantine (PHQ-9 = 17)
- Independent eating, oral hygiene, and bed mobility
- Supervision toilet hygiene, transfers, and ambulation

IPA CMGs and HIPPS Code

- PT/OT = TK
- ST = SA
- NTA = NC
- NSG = ES1
- HIPPS Code = KACC0

$128.96 INCREASE IN DAILY PAYMENT

Example 2 – Payment Increases Slightly

Day 8:

5-Day Assessment Patient Information

- 71-year-old female
- I69.354 Hemiplegia and hemiparesis following cerebral infarction affecting left non-dominant side
- No surgery
- Moderately impaired cognition
- Partial/moderate assistance eating and oral hygiene
- Dependent toilet hygiene
- Substantial/maximum assistance bed mobility and transfers
- Ambulation not attempted due to medical/safety concerns
- SLP comorbidities: CVA, hemiplegia/hemiparesis, aphasia, dysphagia, speech and language deficits
- Swallowing disorder: loss of liquids, coughing
- Puree diet, nectar thick liquids
- Stage 3 pressure ulcer on sacrum – application of non-surgical dressing
- Moderately impaired decision making; sometimes understood (ability to express needs/wants)

5-Day Assessment CMGs and HIPPS Code

- PT/OT = TN
- ST = SL
- NTA = NF
- NSG = LDE1
- HIPPS Code = NLIF1

Day 25:

Considering an IPA Patient Information

- Stage 3 pressure ulcer remains
- Supervision eating, oral hygiene, and bed mobility
- Partial/moderate assistance toilet hygiene, transfers, and walking 50’
- 150’ not attempted due to medical/safety concerns
- Cognition mildly impaired (BIMS = 8)
- Swallowing disorders resolved
- Mechanically soft diet, thin liquids
- SLP comorbidities remain
- Minimal depression (PHQ-9 = 4)
- Contracted a fever and pneumonia
- Needed a blood transfusion

IPA CMGs and HIPPS Code

- PT/OT = TO
- ST = SK
- NTA = NE
- NSG = HBC1
- HIPPS Code = OKGE0

$32.89 INCREASE IN DAILY PAYMENT

Example 3 – Payment Decreases Slightly

Day 8:

5-Day Assessment Patient Information

- 82-year-old male
- S72.001D Fracture of unspecified part of neck of right femur, subsequent encounter for closed fracture with routine healing
- No surgery
- Cognitively Intact (BIMS = 15)
- Multiple sclerosis
- Inflammatory bowel disease
- Independent eating and oral hygiene
- Substantial/maximum assistance toilet hygiene, bed mobility, and transfers
- Ambulation not attempted due to medical/safety concerns
- On 2 restorative programs (bowel/bladder and ROM)

5-Day Assessment CMGs and HIPPS Code

- PT/OT = TG
- ST = SA
- NTA = ND
- NSG = LBC1
- HIPPS Code = GAKD1

Day 16:

Considering an IPA Patient Information

- Independent eating and oral hygiene
- Supervision or touching assistance toilet hygiene, bed mobility, transfers, and ambulation
- Contracted pneumonia
- 2 restorative programs continue
- No depression (PHQ-9 = 2)

IPA CMGs and HIPPS Code

- PT/OT = TG
- ST = SA
- NTA = ND
- NSG = CBC1
- HIPPS Code = GAPD0

$10.21 DECREASE IN DAILY PAYMENT
